Gentlemen:

Please find enclosed two copies each of the revised "Identification of Operable Unit No. 3 Area of Concern Draft Report" (AOC document) requested by EPA. This submittal incorporates EPA's comments and concerns from the October 1992, draft that were discussed in detail with EPA's staff in the March 18, 1993, meeting. As in the earlier draft, DOE finds no AOC's under a recreational scenario in OU-3, and a small potential AOC within a portion of the Remedy Acreage under a residential scenario. Calculations are based on the conservative end of EPA's risk range (10 E-6).

Since the local governments have expressed a great deal of interest in receiving a final document for local planning purposes, your timely review is requested.

If you have any questions, please call Robert H. Birk of my staff at 966-5921.

Sincerely,

Martin McBride
